Knowle, Dorridge and Bentley Heath Neighbourhood Plan

KDBH Youth Vision

Our young people have beaten us to it! They have already held their own Visioning event, involving over 80 pupils from all schools in our Area.

They were asked to complete the line....

'In our vision, KDBH is an area where....'

Opportunities are available for everyone

We are friendly, caring and safe, with exciting opportunities for all people.

Where the community should be strong and united together. Most importantly, it should lead to a happy future for the young.

Everyone feels safe and can enjoy themselves whoever they are and whatever they like to do.

We look after the environment, young people have many opportunities and, most importantly, everyone is safe.

Families and young people can safely live, work, learn and enjoy their near luxury lifestyles. Also that there are areas dedicated to leisure, sport, schooling, food and cuisine of which all ages can enjoy.

All children have somewhere to have fun, all people, both young and old have a place to learn and everyone has freedom, equality and feels welcome.

Tell us how YOU would finish the sentence

HERE

Summary of what's important to our young people

Need to increase provision for older children, in relation to community, sport and recreational activities

Road safety is a concern, with a desire for greater speed restrictions and increased, safe cycle routes

Policing of park areas needs to be improved to maintain the quality and security of the environment

KDBH needs to offer opportunities for a diverse range of people, in relation to age and culture

There is a desire for improved sports facilities e.g. a gym and swimming pool

The area is lacking a centralised arts venue for music, drama and exhibitions

Housing provision must be affordable enough for young people to be able to stay in the area

Development must be balanced with the care and preservation of open and natural spaces
